

INFINITEPLAY

app Android

# INFINITE PLAY

## DESCRIPTION

- Remote & Wi-Fi app for ANDROID device ( smartphone & tablet )

The InfinitePlay app allows residents to view the visitor from the comfort of their own property or even from the garden.

InfinitePlay app facilitates audio and video calls from the entrance panel directly to a smartphone or tablet.

It has the option to view video camera images, control actuators, open doors and call other devices on the system.

If you enable the remote connection you'll be able to use all the video intercom functions anywhere the world with your smartphone.

A complete Infiniteplay KIT and wi-fi modem are required to operate the app.

For the remote connection the video intercom system must have an internet connection and your mobile device must have a data plan.

### CAUTION:

For remote connection with VPN technology is necessary a system software 4.4.6 or above

### CONFIGURATION APP IN WI-FI :

To begin the configuration the InfinitePlay system must be running ( test one call from outdoor unit to indoor unit refer to diagram at pag. 7 ).

- 1) Verify the cable CAT5 connection between InfinitePlay server Z6001 port n°5 and your home wi-fi router ( ex. Netgear DGN 2200 )
- 2) Open your smartphone iOS
- 3) Connect your Smartphone to the correct home wireless network
- 4) Open the GOOGLE PLAY STORE from your smartphone and download your InfinitePlay app ( the name is INFINITEPLAY )

Tutte le funzioni videocitofoniche comodamente sul tuo smartphone o tablet

# INFINITE PLAY

**VPN CONFIGURATION FOR REMOTE CONTROL :**  
( FOLLOW THIS PROCEDURE AFTER CONFIGURED AND VERIFIED YOUR APP IN WI-FI MODE)

The remote function of the InfintiePlay application is based on VPN technology.

The InfinitePlay application will guide the user on the process of configuration of the VPN.

Before proceed with the configuration of the remote connection please ensure that:

- a) The remote function is enabled on your InfinitePlay server (Z6001 or Z600F). Contact your electricall installer or infiniteplay support in order to compile this step.

Connect your PC to the server Z6001 and call the InfinitePlay web page with <https://192.168.104.1> user name: infiniteplay password: 000000

Press the push button REMOTE and enable this fuction.

Check that your connection is TRUE

# INFINITE PLAY

Now open the settings on InfinitePlay IPCALL app and enable the remoting function on your phone. ( switch ON the control «Enable Remoting» )

Now from your Smartphone close your Wi-Fi and connect your device to internet using 3G/4G connection data

The app InfinitePlay now work in 3G-4G.
