Login:	admin]
Password:	••••	

5. Enter your user name and password in the corresponding fields 😢 .

6. Doubleclick the selected device

Please note: To access the selected camera's web interface, the camera's IP address must be in the same network segment as your computer's IP address.

If your computer's IP address is 192.168.002.100, then configure your camera's IP address as follows:

IP-Adresse : 192.168.2.101

(The first three numbers 192.168.2 must correspond to the IP address of your computer. The last three digits must be individual for each camera.) **Subnet Mask :** 255.255.255.0 **Standard Gateway :** 192.168.2.1 (IP Adresse des Routers)

Web Interface of Balter IP Cameras

Tool	Browser	
Web Plug-In	Windows: Internet Explorer Firefox Mac: Safari	Allows access to IP cameras via a web interface

The browsers EDGE and Chrome are not supported

1. Open the Internet Explorer in Administrator Mode

	t Explorer
Deskto	Als Administrator ausführen
Apps	Speicherort öffnen
Microsof	An "Start" anheften
Einstellungen	An Taskleiste anheften
😒 Interneto	Deinstallieren
Websites	

2. Enter the camera's IP address in the URL bar of your browser. Your cameras' IP adress is shown in the IP Finder Tool.

If you access the web interface for the first time, you will need to install the plug in.

In this case, you will be prompted to download and install the plugin.

3. Click "download" to download the Web-Plugin.

4. Click "Save" to install the Web-Plugin.

IPC_Web_plugin.exe (1,65 MB)	192.168.2	.184			×
	Run	Save	-	Cancel	

4.1. If the Web-Plugin is already installed, click "Run".

5. A Pop-Up will appear, asking you whether you want to make changes to your device. Click "Yes"
